EXPERIENCE

● Frontend Developer, Hackertrail

May 2021 - Present

● Enterprise Application Developer, Tata Consultancy Services

August 2020 - May 2021

Key team member involved in building of internal workflow applicaiton using Microsoft Power Platform. Successfully deployed application to internal O365. Subsequently provided post-launch support.

● Front-end Developer/UI-UX Designer, Tata Consultancy Services

April 2020 - August 2020

Consulted Singapore-based utilities & marine company. Involved in creation of interactive dashboard using Angular to monitor client's customer's energy usage. Involved in UI/UX design of a project catalogue for new change request.

● Business Analyst, Tata Consultancy Services

September 2019 - April 2020

Operating out of digital arm of a UK-based aircraft engine manufacturer, I was involved in agile software development process. I was tasked with the translation of software logic data into information comprehensible by the client. I was also involved in creating an extensive product management portfolio. This included, Market/Competitive Analysis, Product Development Roadmaps and Logo Designs.

● Trainee Developer, Tata Consultancy Services

July 2019 - September 2019

Received extensive training in web development. Concluded programme with a 2-week agile sprint where I operated as the Agile Scrum Master.

● Retail Associate/Warehouse Administrator, Maestro Guitars Singapore

December 2015 - December 2018

Frontline retail staff not only involved in customer service, but also the assistance of marketing lead in product photography. Held a parallel role as warehouse administrative team member, where I effectively assisted in the management of a warehouse of over 500 instruments. Demonstrated proactiveness in the implementation of a restock system for the store using Google Drive. Subsequently implemented a similar warehouse management system.

● Naval Medic (Logistics), Republic of Singapore Navy

July 2014 - November 2015

Certified Emergency Medical Technician (Accredited by JIBC). Conducted medical screenings for Naval Divers. In charge of organization of medical supplies for branch. Management of Corrective/Preventive Maintenance of Medical Equipment
